

Air1 is a vital radio station. It provides me and my children with positive Christian music. I would hate to see it become unavailable in our area. It has made such a difference in our lives to be able to listen to this station in our vehicle. In our world of trouble, this station is providing a positive influence. This is something that we truly need in our world. Please consider the importance of this type of programming and insure it is available to those in need and those wanting a choice. Thank you.
